

Working Together to
Reduce Flood Risk

Silver Jackets

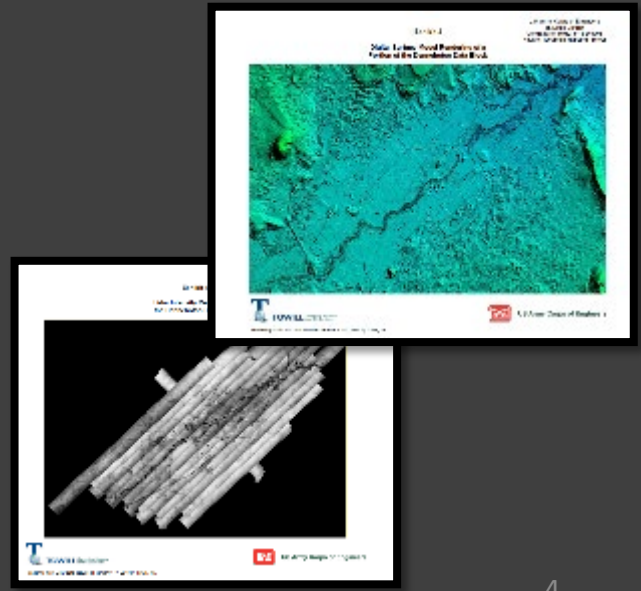

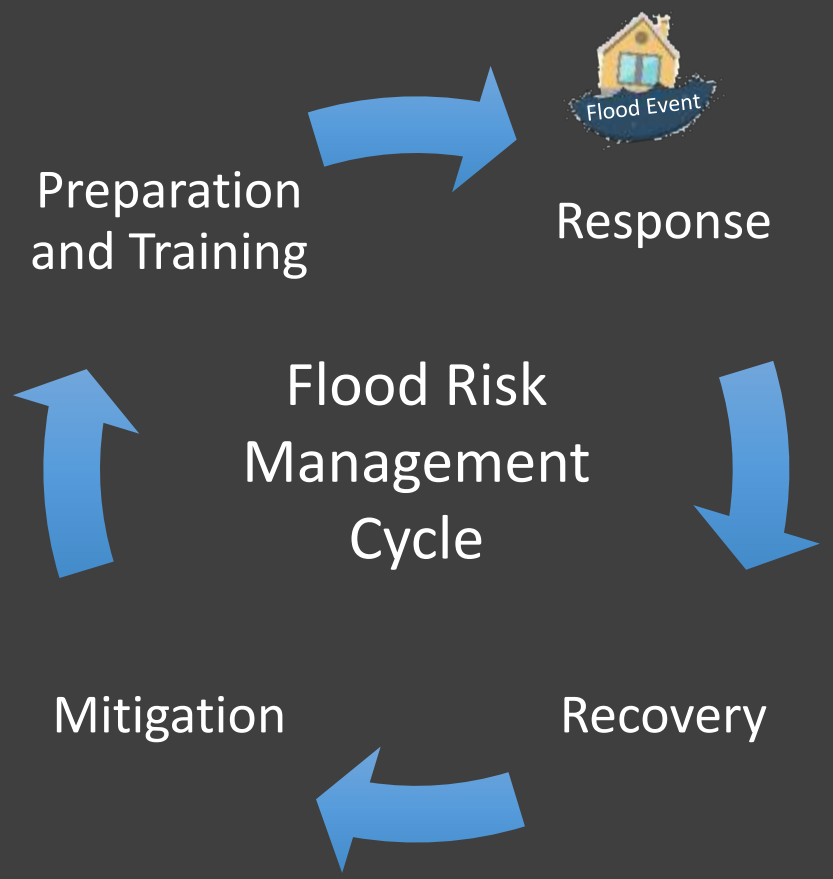

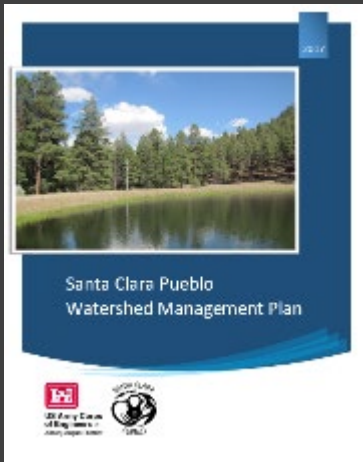

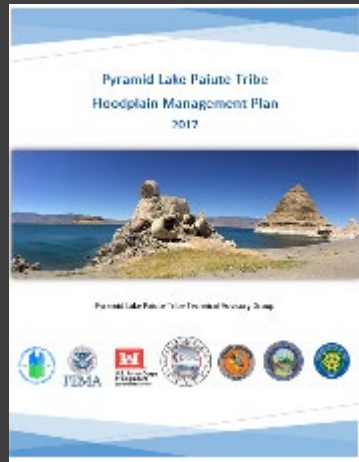

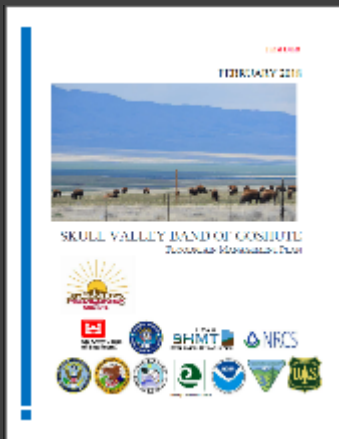

- Interagency Partnership to Reduce Flood Risk
- State Led Teams
- 12-18 month Projects

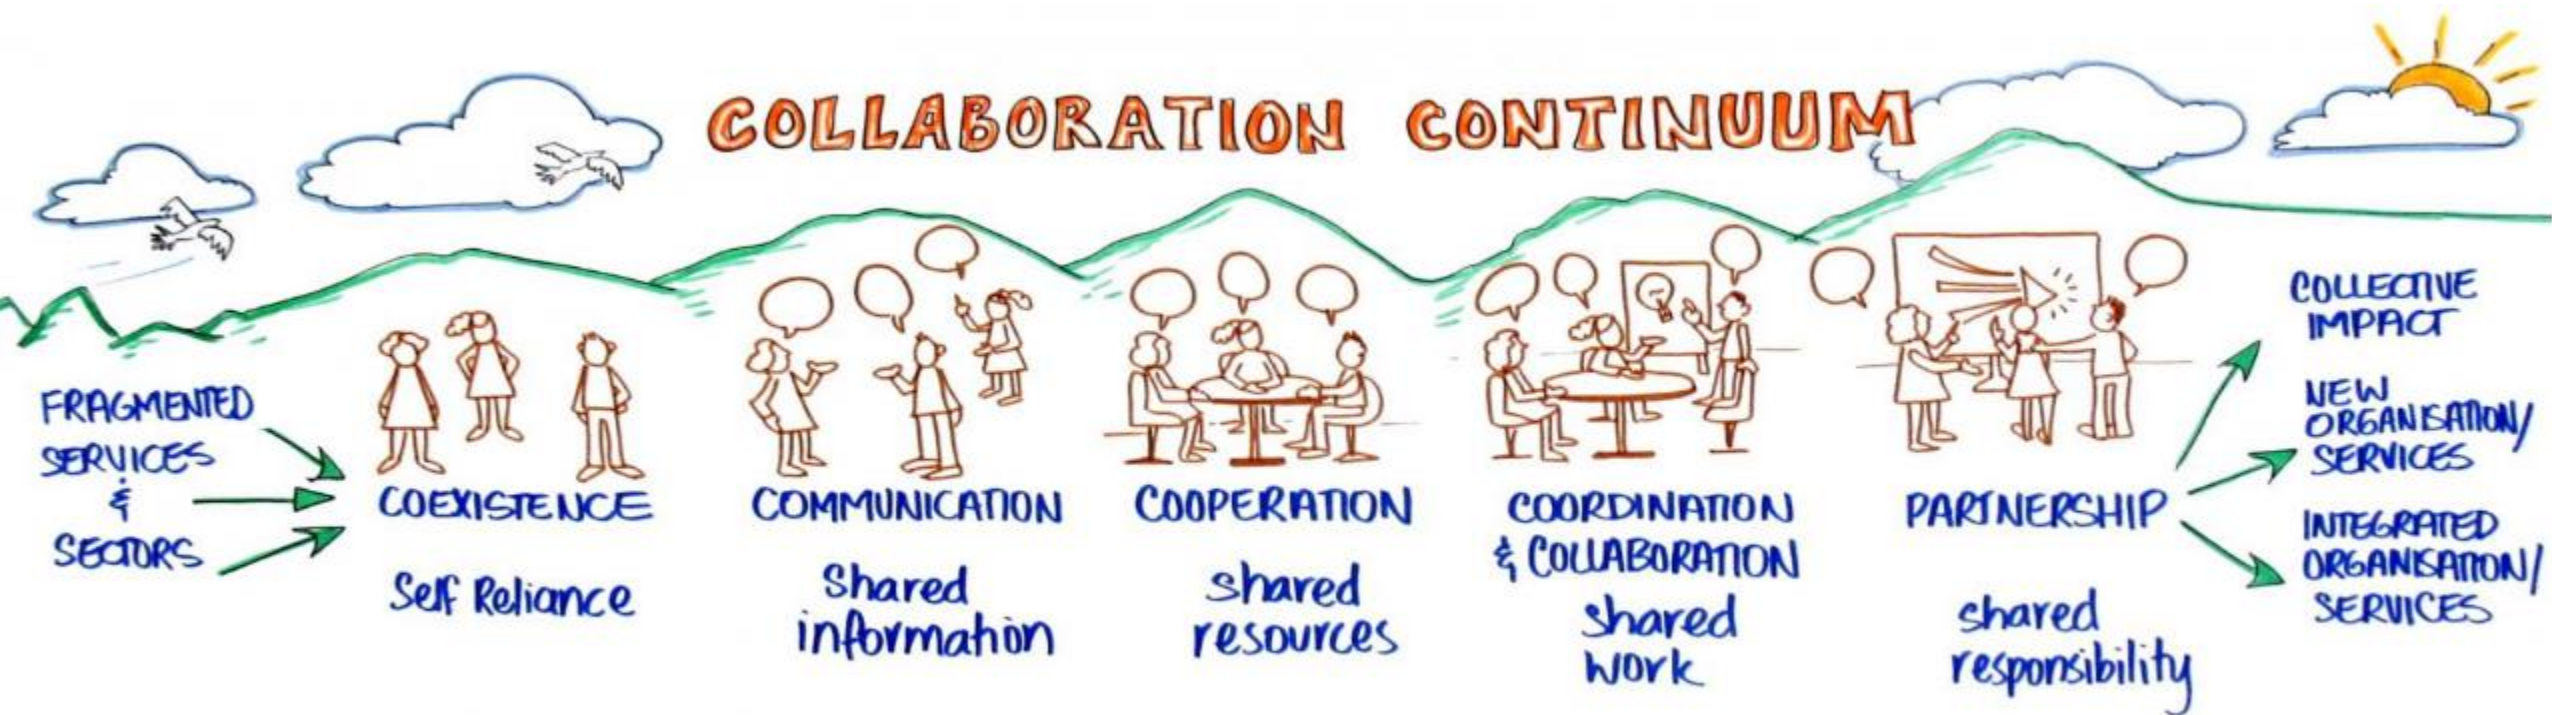

Interagency Project Goals

- Reduce Flood Risk through Nonstructural Means
- Include or Enable Flood Risk Management Action
- Directly Protects Life Safety, Reduces or Prevents Increases in Flood Risk, and/or Increases Resiliency

Project 1

Project 2

Project 3

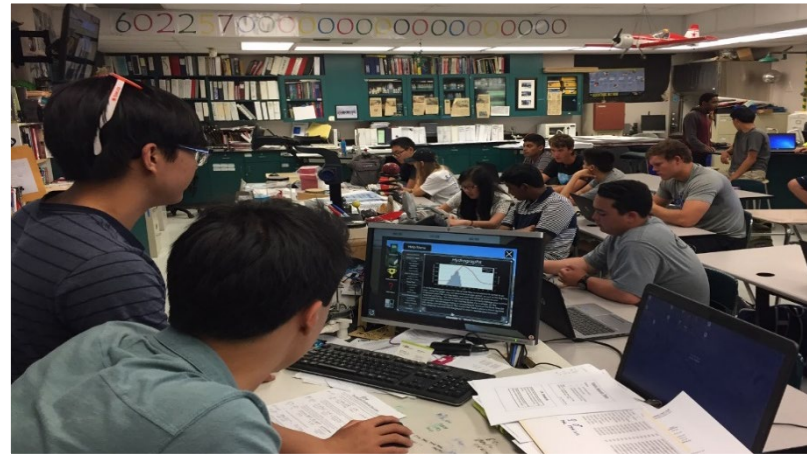

EMERGENCY ACTION PLAN

GUIDEBOOK • Version 2.0
August 2016

Emergency Action Planning Guidebook

- Step-by-step instructions for developing an EAP
- Focused on small and medium sized communities
- Silver Jackets can provide support for communities developing EAPs

- Provide booths and watershed or flood models for existing events
- Attend or facilitate school programs
- Host flood outreach events, e.g. a Disaster Movie Marathon, Flood Preparedness Day
- Hold training events for floodplain managers

Education and Outreach Events

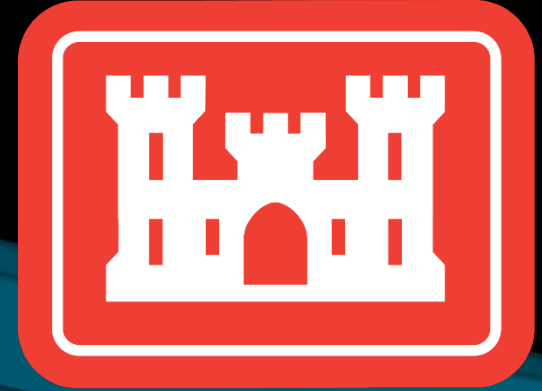

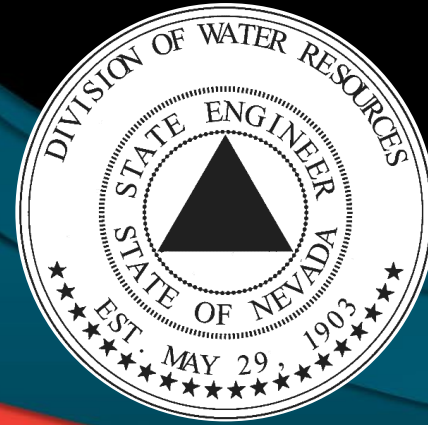

Tribal Emergency Response and Floodplain Management Workshops

- Opportunity to strengthen partnerships with tribal nations through knowledge exchange and inter-agency collaboration
- Provide information on programs and opportunities on water resources challenges
- Can include site visits and assessments to areas experiencing flooding issues
- Held 5 successful workshops in 2019 in California and Nevada – led to future projects with USACE and other agencies

Floodplain Mapping and Hazard Assessments

- Prioritize areas of highest risk and prioritize resources
- Conduct floodplain inundation mapping of areas at risk of flooding
- Develop partnerships with agencies with funding opportunities for mitigation projects
- Effort: Carson Water Subconservancy District Alluvial Fan Mapping Study

Thank you!
