## Flood Prevention Plan Evaluation Science Notebook Page

It is time to meet with the emergency planning committee to finalize the flood prevention designs for the city. Remember the class is working together to make sure the city is safe in the case of a flooding emergency, so make sure to write down helpful feedback for the other committee members.

**Listen as the plan is presented and answer the questions below.**

1) What are some of the strengths of the flood prevention plan?

---

---

---

2) What are some weaknesses to the plan?

---

---

---

3) Is there any data you feel would still be needed to make this a useable plan?

---

---

---

4) Are there any parts of the plan that left you confused or wanting more information? If yes, what were they and why?

---

---

---
